

Product Information Sheet

Microbiology Kit

Our range of science experiment kits will equip you with all you need to carry out each of the practical experiments included in your LJ Create science program.

The kits can be used for teacher demonstration, individual student, or group activities.

Each of the experimental kits are provided in a labelled storage box to allow for easy identification and selection during classroom activities.

Our range of science kits are also supplied with an inventory reference sheets to provide simple resource management and replenishment of any consumable items.

A range of items are supplied in order to carry out the scientific hands-on learning tasks, each item is conveniently contained within a durable vacuum formed box insert.

This kit can be used in conjunction with the biology apparatus kit to explore the skills required when using a microscope in science labs. The prepared slides provided also allow students to explore standard biological samples up close.

Typical Practical Tasks Include:

- Osmosis
- Creating Microscope Slides
- Viewing Microscope Slides
